Management training for busy lawyers and practice managers in private practice and not-for-profit agencies

Over 50 hours of specialist management training and learning opportunities

A market leading management course, the Certificate in Practice Management combines face-to-face training with online learning and materials to provide an accessible and affordable management training programme for busy lawyers and practice managers.

The pressures on small and medium sized law firms and legal advice agencies have never been greater: limited resources; rising competition; lack of legal aid funding; greater client need and expectation; changing technology - the list goes on and on. Managing a practice (or a team) in the current environment is no easy task and there is a lack of cost-effective and tailored management training available to hard pressed lawyers and practice managers.

The course was developed in 2015 by Legal Aid Practitioners Group with support from the UK Commission for Employment and Skills.

The Certificate covers:
- strategy & business planning
- financial management
- recruitment
- performance management
- marketing
- risk management

It is designed around the Law Society Lexcel standard and the Specialist Quality Mark. It deals throughout with managing legal aid contracts and working with the Legal Aid Agency.

The course meets the LAA’s requirements for an approved supervision course.
